**YOUR CAPABLE
PARTNER
FOR THE TRAINING
AND DEVELOPMENT
OF MANAGERS
AND EXECUTIVES**

About us

GICON®-InTraBiD is your partner for the education and training of managers and executives from all over the world.

Our team members possess a high level of intercultural skills and many master several languages including English, Russian, Chinese and Spanish.

WHETHER THROUGH TRAINING OR THROUGH FACILITATING THE ESTABLISHMENT OF NEW BUSINESS CONTACTS – WE DEVELOP NEW IDEAS AND APPROACHES.

GICON®-InTraBiD is part of the international GICON® Group of companies, which focuses on providing engineering and consulting services and furthermore through its research helps shape today's cutting edge technology. If necessary, participants can draw on the skills and knowledge of more than 300 GICON® Group employees in eight countries.

Services

We will prepare you for international business, for the use of sustainability-oriented technologies, for innovation and for changes in your business. For participants from business and administration, we offer training opportunities through seminars which are individually tailored to your needs in the following areas, for example:

- *Project management – fundamentals and practical implementation*
- *Management of large-scale projects*
- *How to do Business with Germany*
- *Development of strategies for small-to-medium businesses*
- *Review and reorganization of business processes*
- *Sustainability as a competitive advantage in international business*
- *Innovation management*
- *Crisis prevention and management*

TRANSFER OF PRACTICAL AND APPLICABLE KNOWLEDGE

Our connections in German and international business extend across all sectors, so that practical management know-how, efficient process control and advanced technologies can be experienced during the seminars.

GICON®-InTraBiD also offers industry-specific training opportunities based on the core skills of GICON® Group. Thus, study tours and specialized seminars on topics such as bioenergy, waste management, spatial and landscape planning, facility planning, geotechnics and mining impacts are compiled individually and according to your wishes.
